Antonio Reyes
Software Developer

areyes2009@yahoo.com | https://www.antonioreyes.dev | 480-819-7696

https://www.linkedin.com/in/antonioreyesphx/ | https://github.com/golden-state0fmind

Technical Skills

Languages
HTML,CSS,JavaScript/Typescript,Python

Libraries and Frameworks
React,React-Native,Node.js,Redux,Flask,TailwindCSS,Next.js

Database
Postgres,Prisma,SQL,Firebase,MongoDB,NoSQL,Azure

Other
RESTful API,Git,GitHub,ES6,JSON,AJAX,Data Structures,Object-Oriented,Async Programming

Projects

Split-Pulse ⧉
TypeScript, Ionic, Tesseract, CSS, Redux
02/2024 – present
- Improved code quality with TypeScript's static typing for reliability and maintainability.
- Unified user experience across iOS and Android with Ionic integration.
- Enabled efficient receipt parsing with Tesseract OCR and LLM integration.

Happy Hound Care ⧉
TypeScript, Next.js, Prisma, Postgres, TailwindCSS, Redux
10/2023 – 11/2023
- Leveraged Postgres for its reliability, ACID compliance, and scalability with large datasets.
- Followed a unidirectional data flow in Redux, ensuring predictable and traceable state changes for easier debugging.
- Implemented Next.js for efficient Server-Side Rendering (SSR), resulting in faster page loads and improved SEO.
- Utilized TypeScript for static typing, reducing runtime errors and boosting overall code quality.

JSON To Excel Wizard ⧉
Python, HTML, CSS
08/2023 – 08/2023
- Leveraged Python for robust backend logic, ensuring seamless JSON parsing and efficient Excel sheet generation.
- Designed an HTML and CSS wizard for seamless data uploading, conversion, and visual appeal.

Professional Experience

Software Developer Mentor
makeitMVP ⧉
03/2022 – present | Remote
- As a mentor, I guide cohorts of boot camp graduates in React, Firebase (backend cloud computing services), and Sass. Offering expertise in project development, debugging, and best practices. I am dedicated to fostering a positive learning environment, where I actively support students on their path to professional development.

Front-End Developer & Tech Support Specialist
SoftPoint ⧉
11/2021 – 07/2023 | Scottsdale, AZ
- Improved efficiency and accelerated load times through custom React, TypeScript, SASS, and Redux components. Diagnosed and resolved technical issues, resulting in a 20% reduction in support tickets.

Lead Full Stack Software Developer
makeitMVP ⧉
06/2021 – 03/2022 | Remote
- Successfully delivered a fully functional product, demonstrating adept use of React Native and effective integration with backend services such as Firebase and MongoDB.

Mobile Developer Intern
GET Cities ⧉
08/2021 – 09/2021 | Remote
- As the sole intern on the project, I transformed Figma designs into a cohesive, user-friendly React Native mobile app. Simultaneously, I built robust server and REST APIs with Express, Node.js, and PostgreSQL. This integration resulted in a highly functional application, showcasing my ability to spearhead front-end and back-end development for an exceptional user experience.

Education

Software Engineering Immersive
General Assembly
12/2020 | Remote
- Full-stack software engineering student in a rigorous 12-week program, mastering product development, OOP, scoping, callbacks, MVC frameworks, and team collaboration. Completed a diverse portfolio of individual and group projects.

AAS Computer and Information Technology
Paradise Valley Community College
01/2020 | Paradise Valley, AZ
